

GARANT Safety

ABOUT US

Garant Safety is a part of Garant Group.

Garant Safety is a safety and firefighting equipment supplier and service station, certified to conduct periodic equipment inspections and tests, as well as the worldwide servicing of safety, firefighting equipment and lifeboats.

Licensed periodic inspections are carried out worldwide by qualified service technicians who are ready to travel and work 24/7 in order to perform the inspections and issue the necessary certificates without interfering with your vessels schedule.

TIMELINE

Garant Ship Repairing Company established in Klaipėda, Lithuania. The company grew rapidly and extended its range of services beyond ship repair, thus diving, safety and ship supply divisions were formed.

1990

In order for business to become more efficient and more responsive to its clients, Garant company was reorganized into Garant Group - separate company Garant Safety was established.

2008

Garant Safety Latvia branch was established.

2010

Mobile Service Stations - minivans equipped with mobile equipment for certified inspection and tests - launched.

2014

Investments in smart warehouse.

2016

New service provided - pressure test of cylinders made of composite.

2018
